

BMSCM Students Activity

2023/24 Internship

Name: Diya GURUNG

Company Name: Design to Outsourcing (D2O) Co., Limited

During my internship, which I obtained through a referral from my program leader, I experienced tremendous personal and professional growth. It has boosted my confidence and expanded my understanding beyond academia. Working with a group of professionals, I contributed to delivering advanced solutions and supported the project director with preparation and documentation.

Recently, I had the opportunity to assist at a booth, immersing myself in real-life situations. This experience sharpened my communication and problem-solving skills. Overall, the internship provided invaluable growth, equipping me with practical knowledge and newfound confidence. I am grateful for this opportunity to learn and thrive in a supportive and dynamic environment.
